MEDIT

Digital Dentistry, *Your Way*

Maximize efficiency and precision with Medit

ABOUT US

At Medit, we go beyond creating products to deliver infinite possibilities for our users.

Our commitment to innovation and customer care propels the digital dentistry revolution, offering 3D digital solutions that transform dental clinics and labs.

With our award-winning intraoral scanners, based on our own patented state-of-the-art technology and collaborative software, we are setting new standards in dental technology.

Our Medit Community

With continuous feedback, active discussion, and helpful suggestions, the Medit community is always connected as customers and colleagues actively support and help one another. There's a reason why over 100,000 dental professionals around the globe trust us.

A Native iPad Experience:

SCAN. ENGAGE. SEND.

With Medit Link Express on iPad, Build Your Digital Dentistry Journey

1st iPad-Native Standalone App

A dedicated app built exclusively for iPad, optimized for mobile intraoral scanning workflows.

Optimized for Scan & Send

Focused workflow from patient registration to scanning and sending, enabling fast clinical turnaround.

Simple and Intuitive User Experience

Streamlined interface with only essential functions, enabling quick adoption with minimal learning curve.

Fast Setup, Minimal Maintenance

Short startup time and automatic updates reduce IT overhead and allow seamless usage.

Seamless Medit Link Synchronization

All case data is automatically synced with Medit Link, enabling seamless handoff between iPad and desktop.

Essential Features Built-In

Easily complete core actions like account sign-up and partnership requests directly within Medit Link Express.

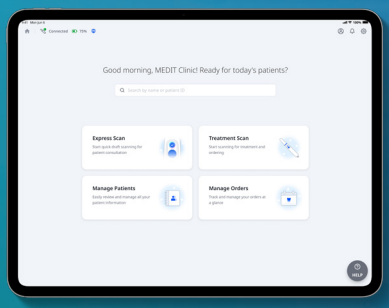

* The iPad is not bundled with the Medit i900 Mobility; customers are advised to purchase it separately if needed.
* Recommended iPad model: iPad Pro M4, 1TB (11” or 13”)

Medit Link Express

Effortless Mobile Scanning

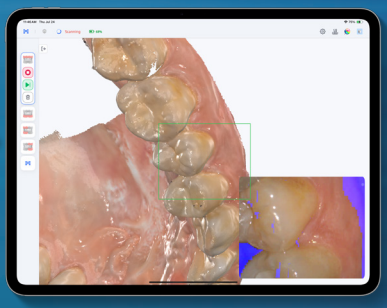

A standalone app for iPad. Scan and send instantly, anytime, anywhere.

Create

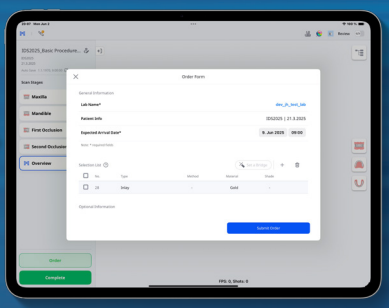

- Start scanning with Express Scan Mode or with Treatment Scan Mode depending on your workflow preference.
- Simple workflows tailored to your needs.

Scan

- Quick and intuitive scanning with a streamlined UI.
- Essential tools only—designed for speed and simplicity.
- Real-time screen sharing enhances patient consultations.

Send

- After scanning, easily send orders with just a few taps.
- Add attachments and notes to include key case details.

A Paradigm Shift in Dental Workflow

Every Patient Deserves Instant Clarity.

Express Scan Mode

Fast Scans, Instant Conversations

Start scanning instantly.
No patient registration required.

This mode is faster, helping patients see and understand their oral condition in real time.

Rebuilt for Blazing Speed & Performance

Show 3D scans instantly on iPad and build transparent trust.

Increase treatment acceptance through interactive communication

Show More, Earn Trust, Deliver Faster.

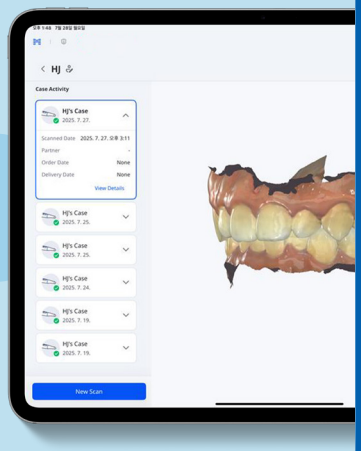

True Mobility, Your Way

Choose the Version That Fits Your Needs—Light or Full, We've Got You Covered.

MEDIT Link Express

Simplified scanning, anywhere.

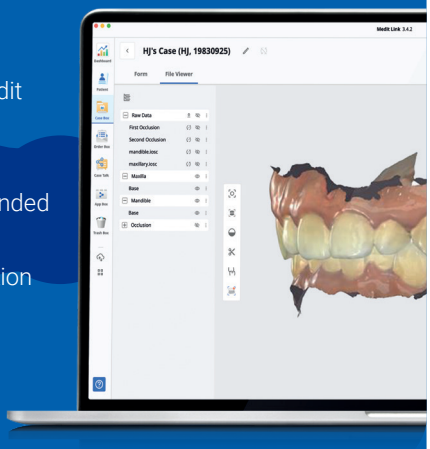

- Optimized for Scan & Send workflows with intuitive UI
- Ideal for quick scans and patient consultations
- Runs exclusively on iPad and Mac

MEDIT Link

Advanced platform for expert users.

- Full access to all Medit apps and workflows
- Supports 3rd-party integrations for expanded functionality
- Requires PC installation (Windows / Mac)

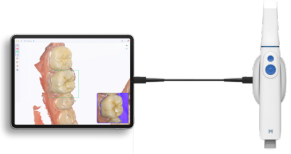

Same Mobility Experience. More Ways to Connect.

Find the setup best matches your clinical environment and preferred workflow.

Medit Smile Design

Visual Smile Simulation for Patient Engagement

- Show realistic before & after images
- Boost case acceptance with personalized smile design

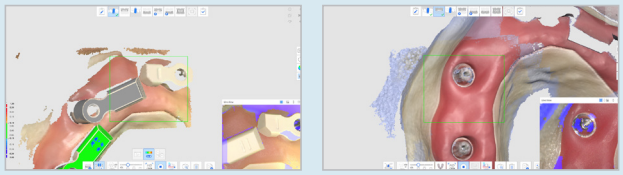

Before & After Simulation

Medit SmartX

Intuitive All-On-X Scanning Workflow

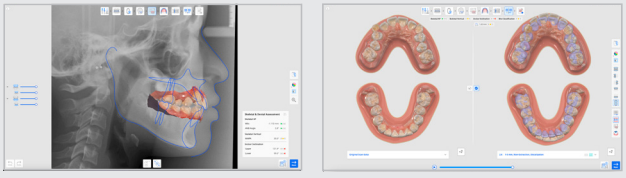

- Intuitive, step-by-step workflow for easy full-arch implant scanning
- Ensure scan accuracy with real-time library matching and automatic alignment

Medit Orthodontic Suite

Chairside Orthodontic Planning & Simulation

- Combine simulation and treatment planning in one app
- Supports multiple treatment types for doctor-led ortho care

Denture Workflow

Clinically optimized denture scanning workflow

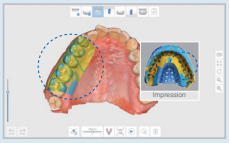

- Effortless workflows with expanded FOV
- Reline scanning and all-in-one functional impression capture

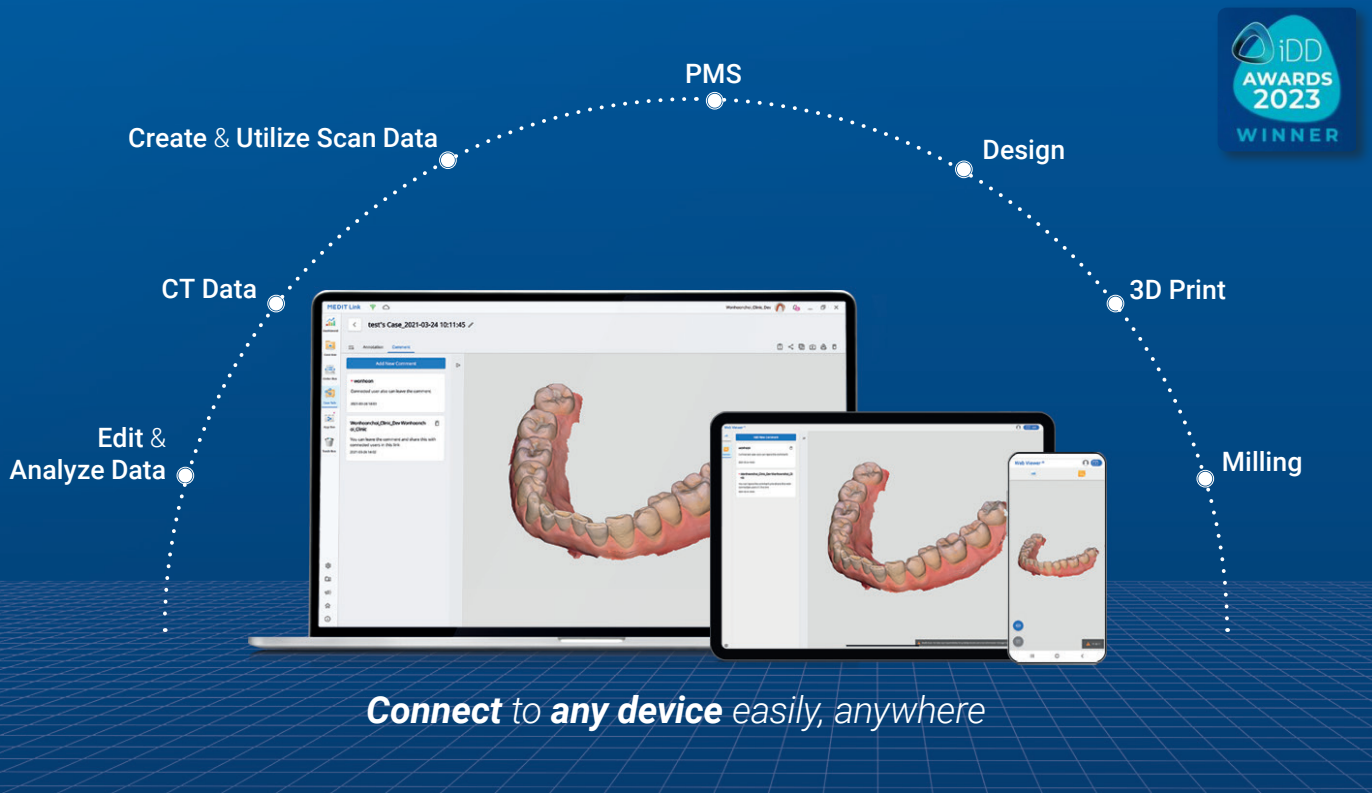

Impression Scanning

Fast and Accurate Scanning of Traditional Impressions

- Automatically converts impression scans into 3D models
- Supports various impression types for flexible use

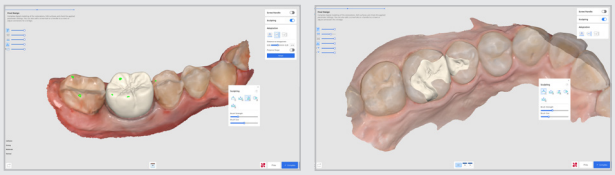

The availability of applications may vary depending on regulatory approvals in each country.
Certain apps may not be displayed or offered in specific regions due to local regulatory restrictions.

Design & Tools

Medit ClinicCAD

Chairside Prosthetic Design, Made Simple

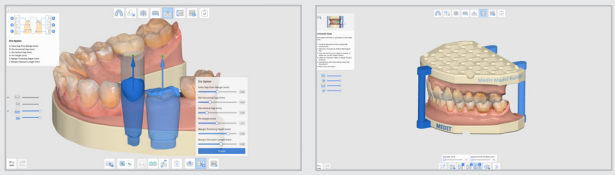

- Supports crowns, inlays, onlays, bridges, and more
- Complete designs in just a few clicks with step-by-step automation

Medit Model Builder

Fast, Automated Digital Model Creation

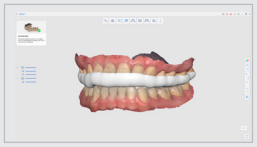

- Quickly generate printable models with auto-design features
- Includes tools for articulators, attachments, and advanced customization

Medit Splints

Easy, Custom Splint & Night Guard Design

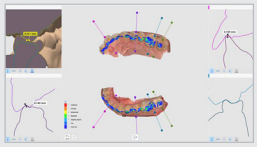

- Intuitive UI/UX optimized for clinical workflows
- Versatile tools for a wide range of splint designs and indications
